VistaCam 702

Indoor Wi-Fi Camera
with 2-way audio

Key features

This indoor, high definition, Wi-Fi camera is compact, easy to install, and ideal for any home or small business security system. With a 1080p HD picture, built-in infrared illumination up to 16 feet, and two-way audio that lets you speak with the people you see, you can keep an eye on your living room, nursery, entryway, and more day or night.

The VistaCam 702 also doubles as a motion detector, enabling useful home automation features such as turning on a hallway light to 30% when motion is detected after dark. Whether placed on a flat surface or mounted on a wall, its sleek design blends seamlessly with any decor.

Indoor camera with full HD, 1080p resolution

Two-way talk lets you communicate with people in your home

Infrared night vision keeps watch when you're asleep

16GB microSD card included

Motion activated recording
